

## The Milwaukee Addiction Treatment Initiative Media Contacts

The Milwaukee Addiction Treatment Initiative (MATI) is a coalition of more than 80 local and state organizations seeking to close the addiction treatment gap in Milwaukee County. This treatment gap is caused by lack of insurance, insurance that artificially limits the amount of treatment that one can access, and an inefficient treatment system that fails to quickly engage and integrate people suffering from addiction. MATI partners include treatment providers, recovery advocates, faith-based organizations, and public health and law enforcement officials. For a full list visit [www.ca-mati.org](http://www.ca-mati.org).
